PROFILE

I am a creative and detail-oriented UI/UX Designer and Front-End Developer with a robust foundation in Figma, Photoshop, HTML, CSS, and JavaScript. I excel in wireframing, prototyping, and transforming designs into responsive and user-friendly web interfaces. I am passionate about crafting intuitive digital experiences while continually honing my front-end skills

PROFESSIONAL EXPERIENCE

UI/UX Designer 02/2026 – Present | Manjeri, Kerala
Duplex Solutions Co

- Redesigned and modernized the company’s existing ERP software with an improved UI/UX experience, making the system more user-friendly and visually updated.
- Gained hands-on experience in ERP workflow design and development, while continuously improving system usability and interface performance.
- Designed and developed responsive websites for Saudi Arabia, UAE, and Qatar-based contracting companies and restaurant businesses with modern and professional designs.
- Created professional business profiles and company presentation materials with clean layouts and corporate branding standards.
- Developed a professional website for a music awarding show program, showcasing creative web design skills and experience in handling entertainment-based projects.

UI/UX Web Designer 11/2025 – 12/2025 | Kozhikode, Kerala
Internship at Febno Technologies

- Developed responsive webpages using HTML, CSS and JavaScript ensuring 100% cross-device compatibility
- Streamlined design processes using reusable components, improving delivery speed by 20%
- Successfully designed and implemented a responsive personal website that increased engagement by 40% and reduced load time by 35%

EDUCATION

PROJECTS

Advanced Leap Co

Business Website

Developed a responsive business website by converting an existing design into clean, functional front-end code

- Converted PSD design files into responsive HTML, CSS, and JavaScript code
- Ensured consistent UI and cross-browser compatibility
- Maintained clean, structured, and reusable front-end code

Green Track

Logistic Website

- Designed the GreenTrack UI/UX in Figma, creating clean layouts and user-centric screens.
- Converted the Figma design into a fully functional responsive website using HTML, CSS, and JavaScript.
- Organized clean and maintainable code structure for scalability and future updates.
- Ensured pixel-perfect accuracy from Figma design to final web interface.

Elve

Rental Website

- Designed and developed a modern and responsive business website with a clean UI/UX approach and professional visual layout.
- Implemented the website using HTML, CSS, and JavaScript with focus on responsiveness, smooth user experience, and performance optimization.
- Created an engaging and visually appealing interface by combining modern web design principles with front-end development techniques.
